2019 was the year of growth for the Ukrainian Cultural Foundation. In February 2019, we presented the Foundation’s three-year Strategy, outlining the main goals and objectives of our work — the fundamental principles that the Foundation has been consistently implementing in the cultural and artistic environment of Ukraine. We are aware of the responsibility — our cross-cutting priorities have been and remain: tolerance, cultural diversity, freedom of creativity, inclusivity, equal opportunities.

We focus on achieving the Foundation’s strategic goals through our competitive and institutional programs. That is exactly the approach that guarantees the effective provision of the culture and art sector’s needs, formed at the Foundation’s strategic sessions and focus groups. Together with the professional community, we were able to outline the main directions for the implementation of innovative, competitive and creative cultural and artistic projects that took into account the interest of different audiences. In addition to this, the program approach provided transparent financial management as well as solution for specific tasks and achievement of measurable results.

We unite with the strong to become stronger: we have joined the Federation of Arts Councils and Cultural Agencies (IFACCA) and the European Network on Cultural Management and Policy (ENCATC). In cooperation with the German Foundation “Remembrance, Responsibility and Future” (EVZ), the British Council in Ukraine, USAID Competitive Economy Program (CEP) and SME.DO (Small and Medium Enterprise Development Office) we have announced new competitive programs.

We learn together with you — along with the launch of the competitive programs, the Foundation team has worked to improve the project selection process. Above all, it is important for us to create an impeccable mechanism of work that balances the legislative norms, professional peer review and our applicants’ trust in the actions of the Foundation.

We are grateful to all those who believe in the UCF and help us, our applicants, experts and partners, the teams of all 432 projects supported by UCF in 2019. I am very grateful to our fantastic UCF team whose energy and efforts are truly impressive. Together we shape the common future of the country, the shared values and the ecosystem of the Ukrainian culture. And we will carry on doing so.

Competitive Programs

In 2019, the Foundation implemented a program approach. We have announced competitions and gradually implemented seven programs aimed at tackling the specific needs of the culture and arts sectors. Within the framework of the competitive programs, the Foundation supported 432 cultural and artistic projects.

The distribution of the UCF funding was considered effective, resulting in 75% of funded projects being submitted by private organizations and only 25% – by public bodies.

It is important to us that all projects have communication components – we ask our applicants to share their achievements and success stories, to distribute the created cultural products and to attract a wide audience. We hope you were fortunate to see the projects #supportedbyUCF in your city.
Prominent Events for Ukrainian Culture

The program enhanced the potential of powerful cultural and artistic events and contributed to creating a positive image of Ukraine in the world. We strove to intensify cross-sectoral collaboration and reach a wide audience both domestically and abroad.

In 2019, we supported 56 projects. Among them were festivals, fairs and conferences that became a platform for communication between Ukrainian and foreign artists, such as: the Air GogolFest Interdisciplinary Contemporary Art Festival and the Second National Biennale of Young Contemporary Art. And also - exhibition projects, which included a research component, for example, the premiere project of the newly created Museum of Cinema “VUFKU. Lost&Found” at the Dovzhenko Center or curatorial exhibition projects, such as “Angels” by art-center “Ya Gallery”, which brought together more than 30 cultural institutions and held about 220 events within the exhibition.

The program was dedicated to the exchange of knowledge, experience and ideas, and also supported experiments in the field of culture and the arts. We funded 69 projects within the program.

The LOT “Educational Programs” developed courses of non-formal education in current trends, as well as laid the foundations for cooperation of Ukrainian higher education institutions with foreign countries (France, Poland, Israel).

The LOT “Mobility and Exchange Programs” implemented 9 projects that contributed to the application of international experience and new artistic practices in the Ukrainian cultural process.

We have also supported 19 residencies (a form of artistic collaboration, which, unfortunately, is developing very slowly in Ukraine): some of them have became a launching pad for young artists or open space for their creative growth, some have researched and tested current artistic practices.

The discovery of new names became a task for 6 projects: the author of works for children Olga Duzhak, the team of designers “U, N, A COLLECTIVE”, the curatorial team of “City Museum”, as well as a competition for young artists “MUHI”, a portal about young art “Mietets” and the Catechism Experimental Kinetic Performance.
Ukrainian Cultural Monitor

The program supported applied humanities research. We sought to address one of the problems that were holding back the development of culture in Ukraine: the lack of data for cultural policy-making at national and local levels, as well as the needs of target audiences – the consumers of cultural products.

7 projects implemented applied researches in 2019, namely: formed recommendations for the development of design in Ukraine; recommendations for strategic directions of the Government, Ministry of Culture, Youth and Sports, and the UCF in the context of increasing the economic attractiveness of culture; recommendations on the implementation of the regional sectoral program for the development of culture of the Rivne region for the period up to 2022, as well as recommendations for the implementation of the strategy of regional development of the Rivne region for 2021-2027; recommendations for the application of QR-coding techniques in museum work.

Inclusive Arts

The program was developed in collaboration with the British Council in Ukraine as part of the Unlimited: Making the Right Moves art program. The focus of the program was to develop the capacity of artists with disabilities, engage audiences with disabilities in cultural and artistic life, and promote inclusive art.

In 2019, we supported 39 projects under the program. 17 of them helped to promote the art of people with disabilities in the common cultural space and reduce prejudices towards them in the society. 13 — adapted museums, websites, shows and movies for inclusive audiences: created all-inclusive designs or tiflocomments.

7 projects were dedicated to creating educational programs (and containing therapeutic techniques, as well as methodologies for engaging with inclusive audiences), lectures and workshops. Such projects, to our mind, let people with disabilities master cultural practices in order to have an income and reduce discrimination in the workplace. 2 projects covered the topic of inclusivity, taught loyalty and respect.
Strengthening the Capacity of the Ukrainian Audiovisual Sector

The program was dedicated to the development of Ukrainian film and television art, the support of young artists and the promotion of Ukrainian audiovisual art in Ukraine and abroad.

One of the biggest achievements of the program in 2019 was the support of the development and preproduction stages that had not previously received state financing. The sector appreciated the possibility of such support for the further development of the project and the search for investors: the number of applications for preproduction financing was the highest among the Foundation’s programs, which confirmed a high demand of the sector in this area.

The division of the competitive program into production stages (development, film and television production, post-production period, promotion) and by the branches (education, promotion, TV production) allowed to support the Ukrainian audiovisual sector in multiple directions. Animated, documentary and feature films about prominent Ukrainian artists as well as historical and military subjects were created. National TV space was enriched with Ukrainian TV shows, TV series and TV movies. The support for festivals and promotional campaigns strengthened Ukraine’s presence in the international arena.

Networks and Audiences

The program supported the creation of sectoral and intersectoral networks in the cultural and artistic fields, encouraged the involvement of Ukrainian artists and institutions in international professional creative networks and promoted culture and arts.

In 2019, we supported 4 events of international professional networks to stimulate the integration of international experience in the Ukrainian context and to expand the map of potential partners for participant organizations. The program also supported 8 cultural management schools that took place in all regions of Ukraine.

We also supported the implementation of the all-Ukrainian information campaign “Date with Art”, which stimulated interest in cultural projects and reached over 16 million users in the media and social networks.
Creating an Innovative Cultural Product

The program, compared to others, had the broadest focus since it was aimed at supporting the initiatives of all sectors of culture and arts and at the implementation of a wide range of cultural and artistic projects that contained an innovative component and extended the boundaries of the experience and practices of these sectors.

That was why this program concentrated the largest variety of cultural product formats:
- 32 printed editions,
- 16 local festivals,
- 12 play productions,
- 13 online resources,
- 10 exhibitions,
- 5 mobile applications,
- 2 audio recordings,
- 2 audio guides,
- 2 concerts,
- 2 hubs,
- 1 competition,
- 1 educational program,
- 1 promotion campaign,
- 1 guided tour.

The main purpose of this program was to introduce innovative approaches to creative processes. The Foundation did not in any way limit the topics of the projects, but insisted on the introduction of new practices, methods, technologies in the daily life of the culture and arts sectors. At that stage of the development, it was innovative tools that could most effectively ensure the growth of the sectors.
