II. About the “Culture.Tourism.Regions” programme

The programme meets the following **key priorities of the Foundation**:

1. Creating favourable conditions for facilitation of creative activities, partnership development and formation of common values of the civil society in Ukraine.
2. Promotion of inter-cultural dialogue and support for cultural diversity.
3. Facilitating preservation of cultural heritage, promotion of its integral and future-oriented comprehension
4. Supporting projects aimed at local development within decentralization process
5. Promoting cross-sectoral partnerships.
6. Unity and integration of different communities around history, cultural heritage, objects of attraction.

Ukraine has significant potential in the development of cultural and cognitive tourism: ownership of tourist and recreational infrastructure, cultural and historical monuments, unique products of folk crafts and the rapid development of cultural and creative industries, which, in turn, also attract tourists. Along with cultural tourism, ecotourism is developing rapidly today - environmentally responsible travel to explore the natural habitat and historical and cultural monuments, crafts, ethnic traditions that help preserve the environment, cause minimal damage to nature and create socio-economic benefits to local communities.

One of the most important features of cultural and cognitive tourism is the ability to influence the development of the regional economy. Cultural tourism can be an effective tool to support the growth of economic and tourism potential of the regions of Ukraine through the strengthening of local communities and the creation of culturally attractive tourism projects.

The aim of the program is to strengthen the cultural and tourist attractiveness of the regions by stimulating local cultural development of communities and generating competitive cultural products.

In 2020, the program "Culture. Tourism. Regions" was developed for a joint pilot project of the Ukrainian Cultural Foundation (UCF), the USAID's Competitive Economy Program (CEP), and the Office of Small and Medium Business Development under the Ministry of Economic Development, Trade and Agriculture (SME.DO). selected for the pilot project by the CEP Program: Zakarpattia and Odesa. The program supported 20 projects, including cultural routes (Cultural route "Shpak's route", Innovative cultural Zakarpattia Art route, Creation of cultural route "Way of Hun"), digital products (Interactive tourist map of Western Odesa oblast "I-map") , local museums (Zakarpattia Miniature museum) and local festivals in online format ("Hutsul fire" folk-fashion fest 2020).

In 2021, the program "Culture. Tourism. Regions" is implemented jointly with the USAID's Competitive Economy Program (CEP), the Office of Small and Medium Business Development at the Ministry of Economic Development, Trade and Agriculture (SME.DO), and the State Agency for Tourism Development.

Programme budget for 2021 is UAH 60 mln.¹

After completion of these three steps, you will see the “**Submit application**” button on the right side of the screen — click it to start completing.

The application can be completed gradually — to do this, please use the “**Save**” button. For convenience, the completed application can be “**Printed**” — that is, displayed on a separate screen for reading or sent to a printer.

At the end of the application, there are special fields to upload the cost estimate, mandatory annexes to the project application and mandatory documents. After you have filled in all the fields of the project application, uploaded the cost estimate and annexes in the appropriate field, apply the electronic digital signature of the head of the applicant organisation and click “**Submit**”. IX. Stages of the Competition and Criteria for Technical Selection of Projects

According to the [Procedure for Competitive Selection of Projects](#), the competitive selection of projects is held in four successive stages:

1. technical selection;
2. expert selection;
3. approval of decisions of expert councils by the Directorate through negotiation procedures;
4. approval of decisions of expert councils approved by the Directorate of the Foundation by the Supervisory Board of the Foundation.

Technical selection of projects

At this stage, the application package is analysed **for compliance with the technical selection criteria**.

The technical criteria for competitive selection of projects determine that the application package:

Important:

Application packages that do not meet **at least one of the technical criteria** are not eligible for expert assessment.

The applicant will be able to see the results of selection of the project for compliance with the technical criteria as the status of its application package in his personal online account, and will also receive an email to the address it specified when registering its personal online account on the official website of the Foundation.
